Item 4 c - Recology/San Bruno Fall Clean-Up Event (Oct. 17)

The public should know that it was Councilmember Laura Davis who initiated and arranged the Oct. 17 Fall Clean-Up event in conjunction with Recology. It was her idea, and hers alone. Laura is not the type of person who needs or wants to take credit for things, so I made the decision to let the public know. This type of "quiet" service to our community reveals the true character of unselfish acts of kindness. No staged photo ops, no contacting news channels or newspapers to tout her many volunteer efforts. Laura is a person who contributes to the community for the purest of reasons. She has been an asset to this city before she was on the city council, while she has been on the City Council, and I am sure will continue to contribute after she steps down from the Council in the near future.
